Student Assistant Position

The chair of International and Regional Economics plans to fill the vacancy of a student assistant position starting as soon as possible (30 hours/month). The position is temporary, with the option of prolongation. We offer insights into the activity of the institute and participation in empirical research projects, as well as training in electronic data handling in addition to a pleasant working atmosphere.

Our offer is especially directed towards students in the middle of their Bachelor's degree or at the beginning of their Master's degree with the ability to work self-reliantly. The ideal candidate should be well versed in working with MS Office. Knowledge in statistical software (e.g. Matlab or Stata) will be an advantage, but specific computer skills can also be acquired as on-the-job training.

Interested students can apply until October 31st 2014 with a short application letter, CV and relevant certifications. The application can be handed over to Veronika Harder (Room 516) or sent via E-Mail to veronika.harder@economics.uni-kiel.de. Further inquiry can also be addressed to Veronika Harder.
